**-- The MAILING DATE of this communication appears on the cover sheet with the correspondence address --**  
**Period for Reply**

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

## **DETAILED ACTION**

### ***Response to Arguments***

1. Applicant's arguments filed 2/25/2009 have been fully considered but they are not persuasive.

### ***Claim Rejections - 35 USC § 112***

2. The following is a quotation of the second paragraph of 35 U.S.C. 112:

The specification shall conclude with one or more claims particularly pointing out and distinctly claiming the subject matter which the applicant regards as his invention.

3. Claims 1-10 and 12-19 are rejected under 35 U.S.C. 112, second paragraph, as being indefinite for failing to particularly point out and distinctly claim the subject matter which applicant regards as the invention.

Re claim 1: It is not clear what the applicant means by “*dynamically* assembling...” as there are several connotations that this could be referring to. It is also unclear what the applicant is claiming in a *dynamic* application module and/or decision modules. It is being maintained

### ***Claim Rejections - 35 USC § 103***

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 1-10 and 12-21 are rejected under 35 U.S.C. 103(a) as being unpatentable over Lebda et al (US 6,385,594) in view of provisional Application 60/190,825 (hereinafter '825).

The claims in reference to Lebda have been all previously addressed in the office action mailed 2/25/2009.

Lebda fails to disclose,

The request to apply is for a plurality of products, and specific information is required to be submitted to apply for each one of the products;

each page is assembled over the network from documents contains at least one field corresponding to the specific information required to apply for one of the products.

The fields displayed by a plurality of documents are specific information required to be submitted to apply for each one of a plurality of products.

The applicant has asserted that '825 does not support the above teaching, particularly that '825 does not support the teaching of credit analysis that differs as a function of the item for which the loan is sought (see Substitute Brief, page 12). The examiner disagrees the applicant's narrow interpretation of the provisional invention. It is submitted that the AutoAfford platform precisely teaches credit analysis that differs as a function of the item for which the loan is sought because it provides "real-time, multi (emphasis added) or single lender loan qualification." (see page 1, second paragraph). It is submitted that credit analysis is used as part of the screening process and provides the buyer with multiple lender choices. It is well known in the art, whether buying different types of cars or houses, that multiple lenders structure comparable (but different) loans based upon the consumers credit report. It is also submitted in relation to AutoAfford that the processing of pre-selected vehicles can represent a range of different type of

vehicles or items associated with a vehicle. For example, there may be a difference between loan structure based upon a fully loaded vehicle and one that is not, or a Lexus and a Ford mustang. Thus it would have been obvious for one of ordinary skill in the art at the time of the applicant's invention was made to combine the teachings of Lebda relating to presenting and accepting a credit application over a network to including the teachings of '825 because for the potentially different types of credit wherein affordability would be a factor for structuring various types of credit.

### ***Conclusion***

6. **THIS ACTION IS MADE FINAL.** Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the mailing date of this final action.
